CELEBRATION
In 2014 ABRO
celebrates
75 years of serving
the world.

For three quarters of a century, ABRO has consistently stood for quality and value. During the past 75 years, it has been ABRO's commitment to our distributors and the consumers who use our products that has fueled ABRO's growth. As we look to the future, we will never forget the foundation on which our success has been built.

At the heart of ABRO is our World Headquarters. Located in South Bend, Indiana, U.S.A., it brings together our dedicated sales managers with logistics experts in order to ensure that the right product mix arrives when and where it is needed. Our sales managers are supported by highly professional accountants, designers and brand protectors. Each member of ABRO's dedicated staff works together seamlessly to allow ABRO to compete, and win, against the biggest companies in the world.

Certainly, the most important part of ABRO is our world-wide team of dedicated and energetic distributors. Located throughout the world, ABRO distributors are independent entrepreneurs who have joined together to form one of the most powerful distribution systems in the industry. Not content, like many of our competitors, to only distribute in a few easy to access locations, ABRO reaches into over 185

countries and territories around the globe. Wherever there is a market to be served, you can be sure that ABRO has a partner working hard, day and night, to serve it.

ABRO distributors range from long established companies who hold a commanding position in their home countries, to new and energetic startups that consist of little more than a single person's dreams and determination. Each distributor carries with them the collective experience of the ABRO family; and each is entrusted to protect the reputation for reliability of the ABRO name. To this end, we make sure that each distributor receives exactly the type and amount of support they need in order to continue to grow ABRO into the successful brand it is today.

As ABRO enters into the last quarter of its first century of business, we recommit to protecting the values that brought us to this point. We pledge to expand our horizons to ensure that we continue to serve our partners and customers well. Not holding to the past, but not forgetting it either, ABRO prepares to reach even greater heights and to enrich its family of distributors even more.

Now, more than ever, ABRO is....
A TRUSTED NAME WORLDWIDE®

PRESIDENT'S AWARDS

ABRO received the E-Award in 1991 and the E-Star Award in 2005. The President's E-Star Award recognizes continued superior performance in increasing or promoting exports. Only recipients of the E-Award are eligible and the level of performance must exceed that for which the E-Award was given.

ABRO[®] PREMIUM

AMERICAN LUBRICANTS

Passenger Cars

We have specially formulated ABRO Motor Oils to fight friction better than ordinary oils, while also withstanding the higher revs and temperatures of high-performance engines. So you can unleash all the power of your engine, without worrying about its oil failing on you.

Synthetic and Semi-Synthetic Motor Oils

Providing high quality engine protection under all driving conditions that are specifically formulated to provide extra protection against the harmful effects of city driving, where cars undergo a higher stress due to constant stopping and going.

Our low friction formula helps improve gas mileage for long engine life and helps protect against rust, corrosion, start-up wear, varnish build-up, and eliminates the need for extra oil additives. It also protects against thermal breakdown which helps prevent stuck rings.

Synthetic Motor Oils available in:
0W20, 5W20, 5W30, 10W30 – SN GF5
0W40, 5W40, 10W40, 20W50 SN

Semi-Synthetic Motor Oils available in:
5W20, 5W30 – SN GF5
20W50 SN
5W30, 10W30, 10W40, 20W50 – SM

- Protects engines under all driving conditions
- Lowers friction and improves gas mileage
- Provides longer engine life
- Protects against rust, corrosion and varnish
- Resists thermal breakdown

Multi-Grade Motor Oils

Providing high quality engine protection under all driving conditions that are specifically formulated to provide extra protection against the harmful effects of city driving, where cars undergo a higher stress due to constant stopping and going.

Our low friction formula helps improve gas mileage for long engine life and helps protect against rust, corrosion, start-up wear, varnish build-up, and eliminates the need for extra oil additives. It also protects against thermal breakdown which helps prevent stuck rings.

Available in: 10W30, 10W40, 20W50 SN

- Protects engines under all driving conditions
- Lowers friction and improves gas mileage
- Provides longer engine life
- Protects against rust, corrosion and varnish
- Resists thermal breakdown

Economy Grade Motor Oils

Blended from selected premium base oils that are designed to provide good wear protection and resistance to oxidation, rust and foaming.

Available in: SAE 10, 20, 30, 40 and 50

- Premium wear protection
- Superior oxidation resistance
- Excellent rust and corrosion protection
- Great foam control

Diesel & Multi-Fleet Engine Oils

(Diesel & Gasoline)

Diesel engines work hard, so their motor oil has to work hard too. At ABRO we've created a line of Diesel Engine Oils tough enough to handle the loads you put on your engine, while reducing friction better than ordinary oils, releasing your engine's total performance.

Synthetic European 5W30 & 5W40 Motor Oils

A premium, fully synthetic motor oil scientifically formulated with ultimate active cleansing technology. It works harder than conventional motor oils to protect by continuously preventing dirt and sludge build up for better responsiveness and improved performance, enabling your engine to operate at its full potential.

Available in: 5W30 -Specs: API SN/ILSAC GF-5, API SM/CF, ACEA A5/B5-08, MB 229.5, VW 502/505, BMW LL-01, RN 700, Ford M2C913-C

5W40 -Specs: API SN/ILSAC GF-5, API SM/CF, ACEA A3/B4-08, MB 229.31, VW 502.00 / 505.00, BMW LL-01, RN 710/700, Porsche A40, PSA B71 2296

CJ-4 15W40 Diesel Engine Oil

Premium grade diesel engine oil that provides excellent protection for newer, high performance engines that are used in the toughest on-road and off-road applications. Shown to be versatile as well as able to meet the grueling demands of today's low emission diesel engines, as well as the older models, which are using both low and high sulfur fuels.

Recommended for use in a variety of heavy-duty uses as well as operating environments. Meets the API SN specification for gasoline engines that are used in mixed fleets.

SAE 15W40 -Specs: Caterpillar ECF-1-A, ECF-2, ECF-3; MACK EON, EO-M Premium Plus, EO-O Premium Plus; CUMMINS CES 20077/20078/20081; Detroit Diesel DDC93K215/DDC93K218; DAIMLER CHRYSLER MB228.5 MB228.1 MB228; NAVISTAR INTERNATIONAL; FORD M2C171; VOLVO VDS-4, VDS-3, VDS-2

- Performs well in low emission diesel engines, which increases the demands on engine lubricants
- Delivers the best performance in these late model engines, as well as older engines
- Excellent soot handling capabilities
- Exemplary thermal stability and oxidation control
- Contains properties that provide anti-wear and anti-scurf
- Contains extended TBN reserves, which provide improved acid neutralization and corrosion protection
- Maximizes oil flow to the critical bearing surfaces during start-up
- Has stay-in-grade sheer stability
- Extended drain capabilities - excellent water tolerance
- Meets the manufacturer's latest warranty requirements of CJ-4 and SN

CI-4/SL Multi-Fleet Premium Engine Oil

CI-4/SL Engine Oils are premium grade engine oils that provide excellent protection for newer, high performance engines. It is designed for use in mixed fuel fleets.

For use in diesel applications requiring API CI-4 or older specifications as well as gasoline applications requiring API SL or older specifications.

Available in: 5W30, 10W30, 10W40, 15W40, 20W50 CI-4/SL

- Performs well in low emission diesel engines which increase the demands on engine lubricants.
- Delivers the best performance in these late model engines, as well as older engines.
- Excellent soot handling capabilities.
- Exemplary thermal stability and oxidation control.
- Contains properties which provide anti-wear and anti-scurf.
- Meets the performance requirements of API CI-4 and SL.

Fleet Motor Oil

Provides high quality engine protection under all driving conditions and is specifically formulated to provide extra protection against the harmful effects of city driving.

Our low friction formula helps improve gas mileage, extend engine life and helps protect against rust, corrosion, startup wear and varnish build-up. It also protects against thermal breakdown which helps prevent stuck rings.

Available in: SAE 30, 40, 50, 15W40, 20W50, 25W50 and 25W60 CF4/S6
SAE 30, 40, 15W40, 20W50 CH4/SJ

- Protects engines under all driving conditions
- Lowers friction and improves gas mileage
- Provides longer engine life
- Protects against rust, corrosion and varnish

Economical Diesel Motor Oil

Economical Diesel Motor Oil provides high quality engine protection under all driving conditions and is specifically formulated to provide extra protection against the harmful effects of city driving. CD Motor Oil helps protect against rust, corrosion, startup wear and varnish build-up.

- Protects engines under all driving conditions
- Lowers friction and improves gas mileage
- Provides longer engine life
- Protects against rust, corrosion and varnish
- Resists thermal breakdown

Available in: SAE 50 CD, SAE 50 SA

Automotive Gear Lubricants

Gears are the unsung heroes of the automotive world. They're the ones that put the power where it needs to be, and the stresses they endure are extreme. Our GL-5 Synthetic and GL-5 Gear Oils are specially formulated to withstand the super high pressures of ring and pinion sets, transmissions and final drives, protecting against scuffing and rust even in the worst conditions.

GL-5 Full Synthetic and Synthetic Blend Gear Oils

A premium quality gear oil for transmissions and final drives. They meet the toughest industry specifications for automotive extreme pressures (EP) gear lubricants including limited slip differentials. They are designed for extreme pressure, offset spiral bevel, and hypoid gear sets (ring and pinion gears) in heavy-duty trucks, farm, logging and construction machinery. These oils are suitable for extended drain intervals.

Available in: 75W90 and 75W140 in Full Synthetic; 80W90 and 80W140 in Synthetic Blend

- Synthetic base stocks maximize oxidation resistance
- Greater film strength at higher operating temperatures
- Reduced wear at start-up and ease of start-up even in arctic conditions
- Extreme pressure additives prevent gear scuffing and scoring
- Prevents formation of rust and sludge throughout the system
- Fortified to prevent chatter in limited slip synchromesh drive trains
- Excellent resistance to foaming
- Extended drain intervals versus conventional products

GL-5 Gear Oils

A premium quality multi-purpose gear lubricant which provides superior performance that is obtained through the use of quality base oils and a select extreme pressure additive system. These additives impart anti-weld, anti-scuff and anti-wear properties that are necessary in heavy-duty service gear lubricants. GL-5 Gear Oils provide excellent protection under the most severe conditions encountered in commercial transmissions, axles and final drives. GL-5 Gear Oils are designed to be used in limited slip differentials.

Available in: 80W90 and 85W140

- For use in limited slip differentials
- Excellent for use in heavy equipment applications that place higher performance demands on the drive train lubricants
- Exceptional reliability in today's drive train applications as well as in the older models
- Provides high thermal stability as well as oxidation resistance
- Protect against low speed high torque wear
- Excellent fluidity in low temperatures which reduces wear during start-up
- Improved lubrication and extended seal life due to good foam control

GL-1 Gear Oils

Manufactured with high quality base stocks to provide outstanding oxidation stability for long service life. This oil is inhibited against foaming and does not contribute to corrosion or wear of yellow metals, such as brass or bronze. GL-1 Gear Oil meets API designation GL-1.

Available in: SAE 90, 140 and 250

- Long Service Life
- Non-Foaming
- Non-Corrosive

Transmission Fluids

Global ATF

A premium fluid designed for automatic transmissions of all North American, European and Asia-Pacific-made vehicles. Global ATF provides exceptional oxidation, wear, frictional stability and anti-shudder properties required in today's high performance transmissions. Its is also designed to deliver premium performance in older transmissions.

Multi-Purpose ATF

Created for electronically controlled transmissions, this product may be used in automatic transmission units that require the use of Dexron® IIIH, Dexron® IIIG, Dexron® IIE, Dexron®II, and Dexron® fluids, and is qualified Ford Mercon® ATF. Further, it meets the performance requirements for Allison Transmission Division (C-4), and major hydraulic pump manufacturers' requirements for anti-wear hydraulic fluids. Multi-Purpose ATF provides excellent friction stability, oxidation, anti-wear properties and low-temperature fluidity desired for most automatic transmissions.

CVT Transmission Fluid

CVT Fluid is a full synthetic automatic transmission fluid specifically formulated for today's technologically sophisticated variable transmissions. This product eliminates the need to stock multiple, limited OEM brands. CVT Fluid has equal, and in most cases, better performance than the most common North American CVT Fluids being supplied by leading OEMs. CVT Fluid provides engineered anti-shudder performance for smooth transfer of power, exceptional anti-oxidation and anti-wear protection in highly sophisticated variable transmissions.

- Excellent low temperature fluidity
- Provides excellent anti-wear, anti-corrosion, anti-foam, and oxidation resistance
- Possesses excellent metal frictional characteristics
- Excellent Shear Stability
- Provides foaming resistance – contains an anti-foaming agent
- Dyed red for easy identification

Type A

A quality economical fluid. It is formulated from select base oils with a special additive to suppress foam formation. It contains red dye as a leak detector.

Type A Automatic Transmission Fluid provides straight mineral oil lubrication and can be used when a lubricant of this type is recommended.

Tractor Transmission Hydraulic Fluids

Formulated specially for use in transmissions, final drives, wet brakes, and hydraulic systems of tractors and other equipment that employs a common fluid reservoir.

Available in: XL Tractor Hydraulic Fluid, EL Tractor Hydraulic Fluid

- Performs many functions such as lubrication of the transmission and final drive
- Serves as hydraulic fluid for the operation of power steering units, brakes and implements
- Eliminates "chatter" and excessive brake facing wear, assuring smooth operation of clutch packs and wet brakes
- Protects metal surfaces against scuffing and wear
- Compatible with equipment manufacturer's proprietary fluids and other fluids of this type.

AW Hydraulic Oils

Hydraulic Oils are premium quality antiwear hydraulic fluids designed to provide optimal protection in high pressure applications. AW Hydraulic Oils are formulated to provide rust protection as well as foam inhibition. AW Hydraulic Oils have excellent oxidation resistance and provide superior antiwear protection. AW Hydraulic Oils have a dielectric strength above 35kV and are non-conductive.

- Specifically designed to maximize protection to hydraulic pump and their parts
- Formulated with highly refined, high viscosity index base stocks
- Provide excellent demulsibility and rust protection
- Anti-wear additives create a protective film on metal surfaces
- Helps minimize metal to metal contact that is most severe in vane and gear pumps
- Minimum viscosity changes over a wide range of temperatures
- Superior filterability is provided with excellent thermal and hydrolytic stability thus preventing the formation of deposits which may interfere with filtration in equipment that has close tolerances.

STOU 10W30 Tractor Fluid

STOU 10w30 Tractor Fluid is multi-functional oil specially formulated with premium quality base stocks, proper viscosity index improvers, pour point depressants, and a top-grade additive for use in tractors and equipment utilizing STOU fluids for the engine oil. STOU 10w30 Tractor Fluid can be used for the crankcase of diesel and four stroke gasoline engines, hydraulic systems, transmissions, final drives, PTO clutch, wet brakes, hydrostatics, and power steering. STOU 10w30 Tractor Fluid has a wide range of applications in engines transmission and hydraulic systems of modern tractors.

- Provides outstanding wear and friction control
- Offers powerful dispersion and detergency
- Superior engine performance
- Enable greater lubricant flow
- Ensures smooth operation
- Versatility for a wide range of manufacturers

MEETS PERFORMANCE CAPABILITIES: API CE, CF, CF-4, CG-4, SF; API GL-4; ACEA E2; ACEA E3; JOHN DEERE J27; MASSEY FERGUSON CMS 1145, 1144, 1139; ALLISON C4; FORD M2C159B; ZF TE ML 06A, 06B, 06C, 06D, 07B; CATERPILLAR TO-2; MB 227.1, MB 228.1, MB 228.3; MAN 271; MIL-L-2104D

Related Applications requiring a STOU Fluid (Super Tractor Oil Fluid)

TO-4 Torque Fluids

TO-4 Torque Fluids are high performance transmission and drive-train lubricants designed to meet the requirements of Caterpillar's TO-4 specifications. TO-4 Torque Fluids are engineered to optimize the performance of powershift transmissions, gearboxes, and final drives. TO-4 Torque Fluids contain an advanced additive system to deliver the precise performance parameters needed to maximize the productivity of construction, quarrying, and mining equipment operating in severe conditions.

- Designed for heavy-duty construction equipment power shift transmissions
- Special additives protect metal surfaces against scuffing and wear
- Frictional controls stop slippage and assure silent and efficient action
- Resists oxidation at elevated operating temperatures
- Defends against rust and corrosion of highly refined precision parts
- Base oils and additives are carefully chosen for compatibility with clutch face and seal materials

Motorcycle and Small Engine Oils

Full Synthetic Motorcycle Oil

ABRO Full Synthetic Motorcycle Oil is specially designed to protect motorcycle engines. It is formulated with full synthetic base stock and a premium additive package chosen for exceptional wear protection, sludge and varnish resistance, and thermal stability.

- Reduces heat, friction, and wear
- Gives excellent protection for transmissions and wet clutches
- Helps reduce foaming and air-entrainment in high speed engines
- Provides excellent protection for air cooled engines
- Multi-grade formula allows easier cold starts while maintaining high temperature film strength
- Outstanding protection against thermal and viscosity breakdown
- Protects against piston/cylinder scuffing

Can be used in all 4-stroke motorcycle engines, including racing, high performance, street, and off road motorcycles.

Available in: 20W50- API SL/CF, JASO MA2

Synthetic Blend Motorcycle Oil

ABRO Synthetic Blend Motorcycle Oil can be used in all 4-stroke motorcycle engines, including racing, high performance, street, and off road motorcycles. It can also be used in motorcycle transmissions when API SN, SM, SL, SJ, or SG motor oil is required.

Available in: 10W40 SN/JASO MG-API SN,SM,SLSJ JASO MB

Premium Motorcycle Oil

ABRO Premium Motorcycle Oil is a formulation specially designed to protect motorcycle engines and meet the lubricating performance requirements for four-stroke cycle gasoline engines. It is formulated with a premium additive package chosen for excellent control for deposit, exceptional wear protection, sludge and varnish resistance, and thermal stability.

Available in: 10W40 SN JASO SN/MB MC OIL -API SN,SM,SL,SJ JASO MB
5W30 SN JASO SN/MA2 MC OIL -API SN,SM,SL,SJ JASO MA2

4-Cycle Motorcycle Oil

ABRO 4-Cycle Motorcycle Oil is specially designed to protect motorcycle engines. It is formulated with a premium additive package chosen for exceptional wear protection, sludge and varnish resistance, and thermal stability. Available in: 20W50 SL

2-Cycle Engine Oil

Designed for small engines to provide excellent engine protection in both variable ratio injection systems and fuel/oil pre-mix applications. It is pre-diluted to provide easy mixing. Formulated to ensure fluidity and miscibility at low temperatures. 2-Cycle Engine Oil is specifically designed for use in newer high performance air-cooled engines, but can be used in any air-cooled engine where low ash oils are recommended.

Our premium formulation is fully compatible with low octane, oxygenated/gasoline fuels. It will provide outstanding anti-scuff, anti-wear, rust and corrosion protection and it burns cleanly and helps keep port clear for maximum output. It also protects bail and needle bearings during high RPM use. Available in: 20W50- API SL/CI-4

TC-W3 2-Cycle Engine Oil

A superior quality ashless 2-cycle lubricant. It is formulated with premium base stocks and modern ashless detergent additive package to maximize performance and to protect outboard engines. It is pre-diluted for ease of mixing and may be used in injection systems.

- NMMA Approved
- Pre-diluted for easy mixing
- May be used in injection systems
- For use in high horsepower outboards

ABRO PREMIUM STANDARDS: API Approved & GF-5 Energy Efficient

ABRO is meeting the latest requirements & energy efficiency regulations in the industry. Many of our oils are API Approved and meet GF-5 & energy efficiency regulations.

GF-5 Energy Efficient Motor Oils

ILSAC GF-5 lubricants improve passenger car performance from the spark plug to the tailpipe. These performance improvements are good news for lubricant marketers, auto manufacturers, consumers and the environment.

GF-5 Energy Efficient Motor Oil meets the current engine protection standard and fuel economy requirements of the International Lubricant Standardization and Approval Committee (ILSAC).

The GF-5 specification is designed to provide improved high temperature deposit protection for pistons, more stringent sludge control and seal compatibility. API SN with Resource Conserving matches ILSAC GF-5 by combining improved fuel economy, turbocharger protection and emission control system compatibility.

API Approved Motor Oils

API Approved Motor oils for gasoline and diesel powered vehicles. Oils displaying these marks meet performance requirements set by the U.S. and international vehicle and engine manufacturers and lubricant industry.

API Approved Motor oil is designed to provide high temperature deposit protection for pistons and turbochargers, more stringent sludge control, improved fuel economy, enhance emission control system compatibility, seal compatibility and protection of engines operating on ethanol-containing fuels.
